

ABSTRACTS OF ACC CONFERENCE PROCEEDINGS

Table of Contents

Peer-review Information and Acknowledgements

Claire Johnson

PLATFORM PRESENTATIONS

Test–retest reliability of trunk motor variability measured by large-array surface electromyography

Jacques Abboud, Francois Nougrou, Michel Loranger, Martin Descarreaux

The PROMIS perspective of parents with children under chiropractic care: A practice-based research network study

Joel Alcantara

The PROMIS perspective of children under chiropractic care: A practice-based research network study

Joel Alcantara

The impact of online pre-exam extra-credit assignments on chiropractic term 1 students' learning and performance in a human histology course

Samir Ayad, Jonathan Carlos

The ring of fire: A review of musculoskeletal sources of posterior, lateral, and anterior generators of hip pain with emphasis on diagnostic imaging

Patrick Battaglia, Norman Kettner

Interdisciplinary collaboration for education and clinical practice: Establishing a community hospital affiliation with chiropractors

David BenElizahu, Alan Kaell, Duy Tran, Neil Sutaria, Michael Tofano

Chiropractors' characteristics associated with physician referrals

Marc-Andre Blanchette, Michele Rivard, Clermont E. Dionne, J. David Cassidy

Does interprofessional education influence physical therapy students' attitudes toward chiropractic?

Bryan Bond, Jamie Dehan, Mark Horacek

Transformation to confident clinician: A focus group study of chiropractic students following an international service learning experience

James Boysen, Stacie Salisbury, Dustin Derby, Dana Lawrence

Awareness and recognition of ovarian cancer in chiropractic practice

Rebecca Burkhalter, Mark Pfefer, Stephan Cooper

The reliability of lumbar motion palpation using continuous analysis and confidence ratings

Robert Cooperstein, Morgan Young

Criterion validity of static spinal palpation compared with a reference standard

Robert Cooperstein, Morgan Young, Michael Haneline

The neuromuscular response to spinal manipulation in the presence of pain

Stuart Currie, Alicia Everitt, Brian Enebo, Bradley Davidson

Ambiguity in the onset of electromyography response to a visual prompt

James DeVocht

Building a culture of workplace wellness in a chiropractic university background

Karen Doyle, J. Dale Marrant, Mark T. Pfefer, Sarah Shelnett

Paraspinal soft tissue layer differential movement from SMT preload forces

Shawn Engell, Jay Triano

Molecular probing of the intervertebral disc: Quantitative iTRAQ proteomic analysis of the nucleus pulposus in health and spontaneous degeneration

William Mark Erwin, Leroi DeSouza, Muhammad Zia Karim, Sophia Wang

Learning to adjust: Is training to become a chiropractor hazardous to your health?

Susan Esposito, Linda Mullin, Ronald Hosek, Frederick Carrick

Cavitation and the neuromuscular response to spinal manipulation

Alicia Everitt, Stuart Currie, Brian Enebo, Bradley Davidson

Design and implementation of a quality assurance program in a chiropractic college clinic: Implications for improved patient care and program feedback

Matthew F. Funk, Anthony Onorato

Emergency department clinician perceptions and actions regarding noncardiac chest pain

Geoffrey Gelley, Mohammed Zarrabian, Steven Passmore

Student perceptions of resistance tube training in chiropractic technique labs

Christopher Good

Positive outcomes increase over time with the implementation of a semiflipped teaching model

Brittany Gorres-Martens, Angela Segovia, Mark Pfefer

Comparison of chiropractic student scores before and after the use of a student response system in a clinical skills course

Joseph Guagliardo

Force-time characteristics of double thenar posterior to anterior thoracic spinal manipulations

Maruti Ram Gudavalli

Changes in manipulative peak force modulation and time to peak thrust among 1st-year chiropractic students following a 12-week detraining period: A pilot study

Brett Guist, David Starmer, Taylor Tuff, Sarah Warren, Matthew Williams

The effects of a single session of chiropractic care on lower limb muscle strength

Heidi Haavik, Imran Khan Niazi, Mat Kingett, Jens Duehr, Kelly Holt

Complementary and alternative medicine techniques for breech correction

Julie Hartman

Baseline survey of online course content in a chiropractic program

Glori Hinck, Kate Quale

The evaluation of active learning techniques for the review of basic sciences and the impact of these methods by multiple-choice exam assessment

Aimee Hollander

Education technology and psychomotor skill development: Teacher thinking versus student thinking

Loretta Howard, John Triano, Marion McGregor, Dom Giuliano

A new model to derive patient low back loads during high-velocity low-amplitude spinal manipulation

Samuel Howarth, Kevin D'Angelo, John Triano

Measurements of innominate vertical length in assessing leg length discrepancy in idiopathic scoliosis patients

Xiaohua He, HanSuk Jung, JooHyun Ham, KyeongAh Min

A review of organizational structure when developing a practice-based research network

Janice Hubbard, Dana Lawrence

Survey of students' perception of the Palmer College of Chiropractic preceptor program

Roger Hynes, Alana Callender, Rachelle Hynes

Glucose metabolic changes in the brain and muscles of neck pain patients treated by chiropractic spinal manipulation: [18f]fdg pet study

Akie Inami, Takeshi Ogura, Shoichi Watanuki, Mehedi Masud, Katsuhiko Shibuya, Masayasu Miyake, Kotaro Hiraoka, Masatoshi Itoh, Kazuhiko Yanai, Manabu Tashiro

Instrument-assisted spinal manipulation enhances recovery following sciatic crushed nerve-injury rats

HanSuk Jung, JooHyun Ham, SungEun Kim, JinOk Choi, HyeRin Cho

Impact of a single interprofessional education intervention on nutritional competency

Gena E. Kadar, Elizabeth O'Toole, H. Garrett Thompson, David Kilgore

Community based free clinics: Opportunities for interprofessional collaboration, health promotion, and complex care management

Martha Kaeser, Cheryl Hawk, Michelle Anderson, Richard Reinhardt

The impact of a course content creation tool (educreations) on student learning in a physiology course

Ahmad Kashif, Glori Hinck

Cortical thickness in S1 following acupuncture predicts long-term symptom improvement in idiopathic hand pain

Norman Kettner, Yumi Maeda, Jieun Kim, Stephen Cina, Cristina Malatesta, Jessica Gerber, Claire McManus, Alexandra Libby, Pia Mezzacappa, Leslie Morse, Joseph Audette, Vitaly Napadow

Patient sexual abuse: Comparing the rate of discipline for chiropractic, massage therapy, medicine, and physical therapy professions

Stuart Kinsinger

Perceived stress and fatigue among doctor of chiropractic students

Anupama Kizhakkeveetil, Andrew Vosko, Marissa Brash, Michael Philips

The regenerative potential of notochordal cell-conditioned media in ligament injury

Anna Pauliina Korpela, William Mark Erwin

Pain reduction and costs of spinal manipulation therapy for chronic neck pain in older adults: A cost-effectiveness analysis conducted alongside a randomized clinical trial

Brent Leininger, Christine McDonough, Gert Bronfort, Roni Evans

Radiologists as educators: A descriptive review of the literature 1990–2012

Kathleen Linaker

Radiology undergraduate and resident curriculum: A narrative review of the literature 1930–2012

Kathleen Linaker

Radiology education student evaluations, outcomes, and national licensure examinations: A narrative review of the literature through 2012

Kathleen Linaker

Pedagogical approaches to diagnostic imaging education: A narrative review of the literature through 2012

Kathleen Linaker

Spinal manipulation learning: Is error detection capability correlated to expertise?

Michel Loranger, Julien Treboz, Jean-Alexandre Boucher, Francois Nougrou, Claude Dugas, Martin Descarreaux

Current practices in lumbar surgery perioperative rehabilitation: A scoping review

Andree-Anne Marchand, Julie O'Shaughnessy, Claude-Edouard Chatillon, Karin Sorra, Martin Descarreaux

Are the peak forces taught in the curriculum at a chiropractic institution for a prone thoracic spinal manipulation effective in producing a cavitation in asymptomatic chiropractic students with a thoracic joint restriction?

Richard McFadden, David Starmer, Daniel Klerer

A case study in patient chart review process improvement

Patricia Merkle, Jonathon Egan

The effectiveness of manual therapy in patients diagnosed with neck pain and whiplash-associated disorders: A systematic review

Silvano Mior, Kristi Randhawa, Heather Shearer, Pierre Cote

A collaborative project examining faculty and intern attitudes and behaviors toward smoking cessation interventions in a chiropractic-teaching clinic: A qualitative analysis

Kenice Morehouse-Grand, Bahar Sultana

Effect of vibration on cervical proprioception in normal subjects

Joseph Morley, David Sikorski

Impact of review timing on student performance

Stephanie Mussmann, Kathleen Linaker

General practitioners' referral for musculoskeletal therapies: Why physiotherapy and not chiropractic?

Gurjit Nahal, Adrian Hunnisett, Christina Cunliffe

The role of chiropractic care in the treatment of dizziness and balance disorder: Analysis of the 2008 National Health Interview Survey Data

Harrison Ndetan, Cheryl Hawk, Steven Pulvino, Vishaldeep Ka Sekhon, Miguel Chiusano

Chiropractic use among active duty military or military veterans: Access to care and payment options

Harrison Ndetan, Wills Evans, Steven Pulvino, Adrita Rahman, David Walters, Julie Swartz

Preferred instructional strategies for various learning styles in cell physiology: A pilot study

Lia Nightingale

Neuromechanical responses to spinal manipulation therapy: The role of the rate of force application

Francois Nougrou, Isabelle Page, Michel Loranger, Claude Dugas, Martin Descarreaux

Health professional perspectives regarding the use of patient-reported outcome measures in an integrated primary care health center: A pilot project

Kirsten Olesen, Peggy Howard, Shirley Xing, Fok-Han Leung, Deborah Kopansky-Giles

Developing training targets for lumbar spine high-velocity, low-amplitude adjustments in a chiropractic program.

Edward Owens, Ronald Hosek, Stephanie Sullivan, Brent Russell, Linda Mullin, Lydia Dever

Correction of abnormal flexion–relaxation phenomenon in chronic low back pain: The benefit associated with biofeedback training

Isabelle Page, Andree-Anne Marchand, Francois Nougrou, Julie O'Shaughnessy, Martin Descarreaux

An exploratory, descriptive study of consumer opinions and behavior regarding health products sales at four chiropractic practices in a large, western Canadian urban center

Stacey Page, D. Gordan McMorland, Jaroslaw Grod

The impact of body position and walking on neurophysiological outcome measures

Steven Passmore, Michael Johnson, Mina Aziz, Jeanmarie Burke, Mary Balliett, Paul Dougherty

Pediatric chiropractors' attitude and opinion about patient safety culture

Katherine A. Pohlman, Linda Carroll, Lisa Hartling, Ross Tsuyuki, Sunita Vohra

Melanoma risk communication: Assessment of chiropractic students using standardized patients

Michael Ramcharan

The addition of spinal manipulation to counseling by chiropractors for tobacco cessation: A feasibility study

Kevin Rose, Anupama Kizhakkeveetil, Gena Kadar, Mark Losack

- Perception of cheating in the classroom setting
Lisa Rubin
- Distance education online intervention for evidence-based practice literacy
Michael Schneider, Roni Evans, Mitchell Haas, Cynthia Long, Cheryl Hawk, Matthew Leach, Greg Cramer, Corrie Vihstadt, Oakland Walters, Lauren Terhorst
- Use of video to teach a biochemical concept in the doctor of chiropractic program
Kathy Shaw, Ali Rabatsky
- The efficacy of collaborative instruction and its implications on interprofessional development
William Sherrier
- Evaluation of molecular phenotype of intervertebral disc nucleus pulposus cells
Jasleen Singh, Ajay Matta, William Mark Erwin
- Chiropractic student attitudes toward the Patient Protection and Affordable Care Act
Edward B. Smith, Mark T. Pfefer, Stephan R. Cooper, Rebecca J. Burkhalter, Simone Briand, Angela R. Segovia, Scott Runnels
- Effectiveness of electroacupuncture on ganglion cysts: A pilot study
Brian Snyder, Dennis Enix, Chelsie Arnold, Aaron Welk
- Pairing preload force requirements with individuals of varying body mass index: A pilot study
Brynne Stainsby, Tyler Iveson, Bradley Abell, Paul Bondy, Shaun Maher
- Learning spinal manipulation: A best-evidence synthesis of teaching methods
Brynne Stainsby, Jade Egonia, Michelle Clarke
- Non-urgent emergency department visits and strategies employed to reduce them
Maxine Stewart
- A pilot study of the effects of whole foods supplementation on adrenal fatigue syndrome
Rodger Tepe, Delia Hobbins, Lauren McVay, Sheri Williams
- Interexaminer and intraexaminer reliability of full spine pressure pain thresholds in symptomatic and asymptomatic participants
Rodger Tepe
- Effects of reflective practice on learning of defined manipulation performance parameters
John Triano, Dom Giuliano, Marion McGregor, Loretta Howard
- Do the clothes make the healer? A history of physician attire from prehistoric times to the present with implications for current practice
Stephan Troyanovich, Jennifer Troyanovich
- Student perceptions of test effectiveness following a simulated objective structured clinical exam
Michael Tunning, Robert Rowell, Thomas Brozovich, Michael VanNatta
- What are the current structures and practices of institutional review boards of chiropractic institutions? A descriptive survey of institutional review boards chairs
Elissa Twist, Dana Lawrence, Stacie Salisbury, Cheryl Hawk
- Response across multiple outcomes in a dose-response trial of spinal manipulation for the care of chronic low back pain
Darcy Vavrek, Mitchell Haas, Moni Blazej Nerdilek, Nayak Polissar
- Development of an assessment tool to effectively evaluate intern clinical competence in a chiropractic academic clinical setting
Jeffrey Ware
- Perceptual changes of Web-based cases
Jeffrey Weiss, Dorrie Talmage
- Chiropractors' perception of occupational stress and its influencing factors: A qualitative study
Shawn Williams, Yarissa Williams
- Continuing professional development: A survey of the opinions of chiropractors in the United Kingdom.
Christopher Woods, Adrian Hunnisett, Christina Cunliffe
- Cervical spine kinesthesia as an outcome measure in the management of cervical spine pain: A pilot study
Shari Wynd, Aladin Boriek, Brad McKechnie
- Chiropractic student attitudes toward the basic science courses in their curriculum
Shari Wynd, Martha Friesen, Ezzat Mikhail, Isis Zaki
- The development of chiropractic technique systems that advocate radiography for subluxation analysis: A genealogy
Kenneth Young
- Effects of peer instruction-enhanced lectures on student recall and comprehension
Niu Zhang, Charles Henderson

POSTER PRESENTATIONS

An anatomical study of arcuate foramina

Salman Afsharpour, Kathryn Hoiriis, Bruce Fox, Samuel Demons

The prevalence of wrist ganglia in a chiropractic student population

Caleb Alford, Kevin Bradshaw, Eric Michener, Aaron Perkins, Kayla St. Aubin, Daniel Haun

Decrease of thyroid autoimmune activity after hypothalamic-pituitary-adrenal axis testing and anti-inflammatory polytherapy: A case report.

Christopher Arick

Overcoming barriers to publication: A case report of a chiropractic researcher

Barclay Bakkum, Robert Cooperstein, Cynthia Chapman

Dynamic assessment of lateral ankle ligament instability and anterior impingement: A sonographic case report

Patrick Battaglia, Katherine Craig, Norman Kettner

Case report: Resolution of cervicogenic cephalgia and greater occipital neuralgia with collaborative care

David BenEliyahu, Jacob Rauchwerger, Alan Kaell, Neha Naik, Michael Tofano

Assessing the change in chiropractic student scores in a review course for NBCE Part 1 examination provided as a required course by an accredited chiropractic college

Judy Bhatti, Elissa Twist

Integration of sacro-occipital technique cranial therapy with an occlusal splint for the treatment of obstructive sleep apnea: A case report

Thomas Bloink, Charles Blum

Improvement in clinical outcomes after dry needling in a patient with occipital neuralgia

Bryan Bond, Christopher Kinslow

Intervention in menorrhagia through chiropractic adjustment and spondylotherapy: A case report

William J. Boro

The return of color vision secondary to macular degeneration after chiropractic care

Thomas Brozovich

The relationship between chiropractor required and current level of business knowledge

Michael Cioffi

Comparison of 4 variations of the manual muscle test of the sartorius

Katharine Conable, Tracy Edelmann

The effect of chiropractic care in a patient with menorrhagia, metrorrhagia, dysmenorrhea, and irregular menstrual cycle length

Karima Cooper, Linda Mullin

Intra- and interobserver reliability of the Cobb measurement by chiropractic interns using digital evaluation methods

Jesse Cracknell, John Taylor, Doug Lawson

The influence of the chiropractic treatment in patients with insulin resistance associated with diabetes type 2: A case series

Fabio Dal Bello, Patricia Bergesch, Charles Blum

Development of a grand rounds course

Renee DeVries, Louise Delagran

Evaluating chiropractic college mission statements: A model for assessment

Scott Donaldson

Case study: Post-sinus surgery insomnia

Eva Elsangak

Tricipital supernumerary head of the biceps brachii muscle: An anatomical case study and clinical implications

Dennis Enix, Kasey Sudkamp, Robbyn Keating, Anthony Aamodt, Frank Scali

Improvements in quality of life in a 4-year-old male with cerebral palsy undergoing chiropractic functional neurology treatment: A case study

Susan Esposito, Kaitlin Townsend

An investigation into the efficacy of fear-avoidance beliefs as a predictor of treatment outcomes in McTimoney chiropractic patients

Carole Filby, Gabrielle Swait, Adrian Hunnisett, Christina Cunliffe

A cross-sectional study to determine current basic public health markers of faculty clinicians at a chiropractic teaching institution

Rod Floyd, Kenice Morehouse, Stephen Grand, Shane Carter, Craig Mencl

Chiropractic and dental care of a patient with temporomandibular and sacroiliac joint hypermobility: A case report

Richard Gerardo, Charles Blum, David Shirazi

- Chiropractic intern attitudes, beliefs, and intentions with regard to health promotion, wellness, and preventive services —Phase 2
Stephen Grand, Kenice Morehouse-Grand, Shane Carter, Rod Floyd
- Improving a patient's quality of life after a traumatizing fall causes structural impairments and disability. A case report illustrating collaborative health care benefits
Joseph Haezebrouck
- Resting pulse rates following adjustment of C1 subluxation: A case series
John Hart
- Resolution of low back pain in an 8-year-old patient following upper cervical chiropractic care: A case study
Charmaine Herman
- Changes in state regulation pertaining to chiropractic staff
LaKeisha Holloway, Catherine Eberhart, Stacie Martel
- The feasibility of using electronic health records as a data source for practice-based research: An exercise in interprofessional collaboration
Ronald Hosek, Stephanie Sullivan, Edward Owens, Joe Esposito
- Cervical herniated disc with cervical radiculopathy symptoms improved under conservative chiropractic care: A case report
Todd Hubbard, Brian Hall, Janice Hubbard
- Implementation of a chiropractic care program for soldiers, veterans, and their families in a chiropractic college clinic system
Julie Johnson, Shayan Sheybani, Ron Boesch
- A preliminary investigation into the effects of cervical spinal manipulation on cardiac autonomic control by measuring heart rate variability
Antonia Kam, Adrian Hunnisett, Christina Cunliffe
- Clinical and ultrasound evaluation of an angioleiomyoma in the lower extremity: A case report
Brooke Van Kirk, Aaron Welk, Aimee Jokerst, Norman Kettner
- Students' perceived confidence in specific elements of the physical examination 1 year post training: A survey and focus groups of 3 student cohorts
Lisa Killinger
- Dorsal scapular artery: Anomaly of rare origin
Kelsey Martin, Everett Johnson, Bahram Sardarabadi
- Sonographic diagnosis of an acute Stener lesion: A case report
Ross Mattox, Aaron Welk, Mero Jr. Nunez, Norman Kettner
- An unusual forearm deformity: Implications for chiropractic management
Celia Maguire
- Effect of activator methods technique on lowering hemoglobin A1C levels in type 2 diabetics: A pilot study
Katrina Mayes, Anquonette Stiles, Larry Hansen, Timothy Guest, John Markham, Gwendolyn Tutt
- Where is the pain source? A patient with low back pain and bilateral avascular necrosis of the hips
Amy Minkalis, Robert Vining
- Restoration of symmetrical muscle tone and infant reflexes after chiropractic intervention of a neonate with concomitant apneic episodes
Linda Mullin, Haruka Yamazaki
- Complete resolution of mild idiopathic scoliosis in a 9-year-old female: Results from the dynamic and corrective SpineCor bracing system
Paul Oakley
- Postconcussion symptom reduction and return to play following chiropractic intervention: A case report
Harold Olson, Michael Tunning, Ron Boesch
- Chiropractic extremity adjusting resolves de Quervain's disease: A case series
Paul Otto, Tracy Olson
- Do chiropractic students purchase and read textbooks? A survey of current chiropractic students
Mark T. Pfefer, Jon D. Wilson, John R. Dobson III, Christopher P. Voll, William Rutherford, Angela R. Segovia, Stephan R. Cooper
- Ankylosing spondylitis mimicking spasmodic torticollis—A case report
Lynn Pownall, Stephen Grande, Elizabeth Rokitka
- An association between low back pain and cigarette smoking
Dewan Raja, Bahar Sultana
- Clinician-specific faculty development program
Robert Rectenwald
- Early poststroke functional neurological treatment restores function in a patient with hemiparesis: A case report
Paula Rhodes, DC, Kelsey Brenner

Chiropractic in the age of Ebola: A systematic review of infectious disease prevention and recommendations for chiropractors

Robert Rowell, Josefina Torres, Karen Goodell

The use of fine arts to improve visual diagnostic skills in chiropractic education

Drew Rubin

Kinetic gait evaluation of 3 patients with foot and ankle injuries, before and after a limited protocol of chiropractic care

Brent Russell, Ronald Hosek, Kathryn Hoiriis

Management of chronic postconcussive central and peripheral symptomatology using chiropractic functional neurologic treatments: A case report

Brian Sass, Susan Esposito

Collaborative care for a patient with complex low back pain and long-term tobacco use: A case report

Michael Seidman, Robert Vining, Stacie Salsbury

A multidisciplinary approach to work-related musculoskeletal discomfort utilizing a behavior-based ergonomic training program for computer users in a chiropractic college: A research pilot study

Charles W. Sherrod, Dale F. Johnson, Shawn T. Sherrod

The benefits of an integrated approach to the management of temporal mandibular dysfunction: A case study

Peter Shipka

The effects of multimodal chiropractic care on pain and disability in a patient diagnosed with Ehlers-Danlos syndrome, hypermobility type: A case report

Richard Strunk, Mark Pfefer, Kamraan Husain

The impact of chiropractic activator adjustments on mental rotation and line judgment reaction time: A pilot study

Stephanie Sullivan, Rebecca Shisler Marshall, Lawrence Hansen, John Markham, Tim Guest

Are our students engaging in self-reflection?

Dorrie Talmage

Improvement in motor coordination in a senior patient following chiropractic care

Beatrice Tapia-Borges

The deserted library: Students' perceptions of the library as supporting their academic achievement—Interpretive case study

Chabha Hocine Tepe

Information literacy self-efficacy and information literacy knowledge of 1st-, 2nd-, and 3rd-year chiropractic students

Rodger Tepe

Quantitative assessment of changes in brain activity after a chiropractic adjustment

Daniel Tuttle, Jerry Hochman, Stephanie Sullivan, Ronald Hosek

Transient quadriplegia in a high school athlete

Michael VanNatta

Challenges in patient recruitment and retention in clinical trials— Is there a need for interprofessional collaboration?

Sivarama Prasad Vinjamury

Development and implementation of a wiki site at a chiropractic college

Paul Wanlass, Anupama Kizhakkeveetil, Michael Sackett

Impact of justice on organizational and supervisor trust at chiropractic colleges

Dan Weinert, Dustin Derby

Diagnostic ultrasound findings in adhesive capsulitis: A report of 2 cases

Aaron Welk, Norman Kettner

Chiropractic student attitudes regarding radiology use: Survey development and validation

Jon D. Wilson, Mark T. Pfefer, D. Jason Qualls, Angela B. Segovia

Long-term chiropractic management of progressive adolescent idiopathic scoliosis: A case study

Alan Joshua Woggon

MRI-measured change in intracranial flow following upper cervical chiropractic care of a migraine headache subject: A case report

H. Charles Woodfield III, D. Gordon Hasick

Interexaminer reliability in analysis of orthogonal radiographs

H Charles Woodfield III, John F. Hart, Peter B. Jacquemin
